

Release Plan
Spot
Spot Communications, LLC
Spot, December 6, 2013
Revision 1.0, October 3, 2013

High level goals:

- Be able to join a chat room and talk with multiple near by users.
- Have a working netcode that has a messaging protocol.
- Be able to start a new chat room.
- Have a intuitive UI that maximizes user convince.
- Be able to test the main functionality and features of the applications.

User stories for release:

- Sprint 1
 - As a developer, I want a functional UI so that users are able to use our application.
 - As a developer, I want functioning netcode so that we can have multiple phones connecting to eachother.
 - Sprint 2
 - As a developer, I want our netcode to include a chat protocol, so that users can chat with eachother.
 - As a user, I would like a better interface, so that the application is easy to use.
 - As a user, I would like good netcode, so that chatting is quick and smooth.
 - Sprint 3
 - As a user, I would like to be able to create secret chat rooms, so that I can talk with my friends.
 - As a user, I would like to auto-join preferred chat rooms, so that I at reoccurring events I can be connected with out people.
 - As a user, I would like to be able to moderate chat rooms, so that I can remove chat abusers.
 - Backlog
 - File Transfer Protocol (FTP)
 - Encryption
 - Monetization
 - Pictures (Part of FTP)
-
- As a user I want to be able to join a chat room so that I can communicate with near by users.
