

## Release Plan

Spot

Spot Communications, LLC

Spot, December 6, 2013

Revision 1.0, October 3, 2013

High level goals:

- Be able to join a chat room and talk with multiple near by users.
- Have a working netcode that has a messaging protocol.
- Be able to start a new chat room.
- Have a intuitive UI that maximizes user convince.
- Be able to test the main functionality and features of the applications.

User stories for release:

- Sprint 1
  - As a developer, I want a functional UI so that users are able to use our application.
  - As a developer, I want functioning netcode so that we can have multiple phones connecting to each other.
- Sprint 2
  - As a developer I want a functional UI so that we can run the application
  - As a developer I want functional netcode
  - As a developer I want to link the UI functionality with the netcode
  - As a user I want a clean UI so that it is easy to use
  - As a user I want a user manual so that I have available documentation for all features of the application
- Sprint 3
  - As a user, I would like to be able to create secret chat rooms, so that I can talk with my friends.
  - As a user, I would like to auto-join preferred chat rooms, so that at reoccurring events I can automatically join my favorite chats rooms.
  - As a user, I would like to be able to moderate chat rooms, so that I can remove others who are abusing that chat.
- Backlog
  - File Transfer Protocol (FTP)
  - Encryption
  - Monetization
  - Pictures (Part of FTP)
